Summary

As a dedicated software engineer, I am committed to ongoing learning and improvement.

Currently, I'm focused on enhancing my skills in several key areas, including architecture, build processes, dev-ops pipelines, front-end development, and agile methodologies.

I have a strong foundation in frontend methodologies which enables me to create high-quality software solutions that meet the needs of both users and stakeholders.

Experience

Senior Software Engineer

Vyne Dental®

Feb 2022 - Present (1 year 3 months)

Working as a Senior Front-End Engineer at Vyne Trellis, I develop a comprehensive insurance billing platform using the latest technologies. Working in an agile environment, I collaborate with the team to refine the codebase, optimize performance, and maintain modularity. We work with multi-cloud infrastructure using Azure and AWS for CI/CD. As a dedicated team player, consistently delivering high-quality work on time and within budget is a primary objective.

Senior Software Engineer

Purple

Feb 2021 - Feb 2022 (1 year 1 month)

During my time at Purple, I collaborated with multiple teams to develop and enhance the e-commerce platform, delivering mission-critical sales and promotional objectives. A core focus of mine was creating and implementing new front-end content for both new and existing products, resulting in improved customer experience.

Acting as a liaison between product, content, and engineering teams, I worked in an agile environment to bring new products to market, build promotions, and enhance the existing codebase. My strong verbal communication skills were critical to my success in this role.

Software Engineer

CardWorks

Sep 2019 - Feb 2021 (1 year 6 months)

As a full-stack developer, I maintained a ticketing system using a variety of technologies, including C# .Net Framework, Entity Framework Core, MS Server, TSQL, Angular, rx/js, NgRx data, Typescript, JavaScript, CSS, and Material UI.

Senior Frontend Developer

PermaPlate

Jun 2019 - Sep 2019 (4 months)

Senior Frontend Developer, I provided valuable insight and advice on frontend projects while maintaining and improving the visual design of websites. My work included utilizing a variety of technologies such as HTML, CSS, JavaScript, Vue.js, and Photoshop to create engaging user interfaces.

Front End Developer II

Melaleuca: The Wellness Company

Dec 2018 - Jun 2019 (7 months)

In my role as a collaborative Frontend Developer, close teamwork was essential to deliver exceptional user experience. Together, we created and launched product pages and micro-sites. Additionally, partnering with backend developers in an agile environment enabled us to provide comprehensive solutions.

Frontend Web Producer (Contract)

Micron Technology

Jul 2018 - Dec 2018 (6 months)

As a Frontend Web Producer, I created visually appealing designs for Micron Consumer Products Group's domestic, regional, and international sites. I identified and addressed site issues with workable solutions within strict time constraints, collaborating with multiple departments and time zones to produce desired outcomes. Additionally, I operated Content Management Systems and eCommerce tools for site production.

Front End Web Developer

RS&I Inc.

Feb 2017 - Jul 2018 (1 year 6 months)

At RS&I, I played a key role in web design and development, including leading the redesign of the customer-facing website and HubSpot Blog. Optimizing website performance by creating custom solutions and landing pages, and designing engaging email templates aligned with company branding was a core component of my role. I also helped to restructure the web leads funnel for improved lead generation and customer experience. I'm grateful for the opportunity to have made meaningful contributions to such an innovative team.

Web Content Specialist

Stuart's Media Group

Jul 2016 - Feb 2017 (8 months)

As a social media specialist, I created engaging content that maximized brand awareness and generated sales leads for clients. By analyzing campaign performance and adapting strategies as needed, I ensured optimal results. I helped clients build a strong online presence that reinforced their brand identity and cultivated a loyal following, delivering measurable value with eye-catching graphics and compelling copy.

eServices Specialist

Idaho Central Credit Union

Apr 2014 - Jan 2016 (1 year 10 months)

In my role as a customer support specialist, customers were assisted with online services such as website navigation, mobile banking, and electronic bill pay. A commitment to prioritizing customer satisfaction was upheld by promptly addressing their concerns and proactively resolving issues. The focus on delivering quality service resulted in positive feedback and increased customer retention.

Education

Udacity

Front-end Development

2015 - 2016

During my Nanodegree in web frontend development, I gained a strong foundation in HTML, CSS, and JavaScript. Through the program's guided and efficient curriculum, I learned how to build responsive websites that are optimized for security and performance.

Idaho State University

Bachelor's Degree, Economics

2009 - 2014

Through my coursework, I gained a deep understanding of market dynamics, including what drives businesses and consumers, and how to identify supply and demand in real-world settings. In addition, I studied the principles of business and marketing, including the art of inbound marketing and how marketing can influence consumer behavior to drive purchases.
